Summary

Frontend engineer with expertise in React, Next.js, and TypeScript. Skilled in improving codebases, optimizing performance, and contributing to frontend architecture.

Work experience

Frontend Developer @ Cegeka

April 2026 - Today

- ▷ Collaborating with frontend and backend teams to implement new features on web banking applications, ensuring seamless integration and optimal performance.
- ▷ Migrating legacy codebases to modern frameworks, enhancing maintainability and scalability of the applications.

Frontend Engineer @ E-food

June 2024 - Today

- ▷ Developing and enhancing key features for the e-food web platform, focusing on performance, usability, and long-term maintainability.
- ▷ Playing an active role in migrating the legacy codebase to Next.js, improving architecture, structure, and development velocity.

Frontend Developer @ Sportserve

October 2021 - May 2024

- ▷ Improved performance, scalability and user experience across large-scale sportsbook applications.
- ▷ Contributed to redesigning and rebuilding the sportsbook platform using Next.js, TypeScript, and Tailwind CSS, resulting in a cleaner, more maintainable codebase.

Jr Software Engineer @ Upstream

June 2020 - September 2021

- ▷ Contributed to marketing micro-sites and supported development of an internal advertising platform alongside senior engineers.
